Relevant Policies

To report a crime or policy violation

In any situation that requires immediate assistance from the police, fire department, or ambulance, call 9-1-1. For non-emergencies – where the threat to person or property has passed or is not likely to cause harm in the next half hour – you can call 913-651-2260 for the Leavenworth Police Department, 913-727-3000 for the Lansing Police Department, 913-596-3000 for the Kansas City Kansas Police Department, or 816-234-5111 for the Kansas City Missouri Department.

Suspicious activity, including people in parking lots or loitering around vehicles, inside buildings or around the Residential Halls should be reported to campus security at 913-758-4346.

If you believe a campus policy may have been violated, you can "Report a Concern" (anonymously if you wish) using stmary.edu/report, which is available in eSpire and throughout stmary.edu. You may also directly contact:

1. Title IX Coordinator (a confidential resource)

   913-758-6231 Mead 101

2. Vice-President for Student Life (not a confidential resource)

   913-758-6109 Saint Mary 106

3. Assistant Dean, Student Services & Deputy Title IX Coordinator (a semi-confidential resource)

   913-758-6128 Saint Mary 106

4. Campus Counseling (a confidential resource)

   913-758-6143 Saint Mary 411

5. Campus Ministry (a semi-confidential resource)

   913-758-6146 Saint Mary 105

You may contact other USM/SCL employees, but they are not confidential resources and their involvement may delay the start of an investigation and/or disciplinary process.

You can contact campus security before, after, or instead of calling any of these services at 913-758-4346 and the officer on duty will follow up appropriately. In emergency situations, it is always best to call 9-1-1 first.

The University of Saint Mary and the Sisters of Charity of Leavenworth have mutual aid and working agreements with several local agencies to promote collaboration; enhance the reporting of, investigation of, and appropriate response to incidents that compromise the health, safety, and/or security of the community; and promote compliance with legal requirements.

Campus Safety & Security

The university maintains its own security staff, which patrols and has responsibilities at the Main Campus. The department is staffed 24 hours a day, seven days a week. The officers are not commissioned law enforcement officers. Officers patrol all areas, both interior and exterior, of the property owned by the Sisters of Charity of

Leavenworth and the University of Saint Mary, located at 4100 S. 4th Street, Leavenworth, Kansas 66048. Officers are present on campus to provide security coverage and to enforce the policies of the university as they relate to student life, visitors, parking and traffic regulations. Officers have no law enforcement authority. When a crime occurs on campus, the officers and/or other campus officials work the local law enforcement authorities providing their services to the USM campus. While Safety & Security officers do not have power to arrest, they can detain individuals and gather information to assist the local police in the investigation of incidents. When incidents occur on campus, individuals are encouraged to promptly file an Incident Report with Campus Safety and if necessary, call the Leavenworth Police Department to file a report or request assistance.

During business hours Monday-Friday (8 a.m.-5 p.m.), the university will be open to students, parents, employees, and guests. During non-business hours, access is by key or by using a University of Saint Mary identification swipe card. Campus Safety locks and unlocks all academic buildings daily. Student housing facilities are locked 24 hours a day/seven days a week. For purposes of this ASR, any student housing facility that is owned or controlled by the institution, or is located on property that is owned or controlled by the institution, and is within the reasonably contiguous geographic area that makes up the campus is considered an on-campus student housing facility. At the University of Saint Mary these buildings are Maria Hall and Berkel Hall. Access to these residence halls requires a University of Saint Mary identification swipe card. The university does not have any officially recognized student organizations with off-campus housing. Campus Safety Officers conduct patrols to check for any issues that may pose a security threat or are a maintenance issue. Maintenance issues include checking exit and emergency lighting as well as outdoor pathway lighting.

There are no security officers provided at the Overland Park Campus. The Overland Park Campus is a non-residential campus housed in a commercial building leased from a local high school, which does still use the rooms when University of Saint Mary classes are not being held there. Approximately 250 University of Saint Mary students are enrolled in classes that generally meet between 5 p.m. and 10 p.m. Monday through Friday on that campus. Eight (8) employees hold office hours between 9 a.m. and 6 p.m. Monday through Friday. The building has a security lock which requires visitors and guests to be buzzed in through the front door. Security, emergency response, and contact with the local authorities is handled by the high school; however the Site Director for the Overland Park Campus is considered a Campus Safety Authority for the main campus.

Timely warnings are issued by the University Campus Safety and Security Department whenever a crime has occurred on campus or in the community that represents a serious or continuing threat to the university community. The Chief Compliance Officer, in consultation with the President, will issue a warning as soon as possible by at least one of the following means: the Textcaster text message alert system, the institutional email system, and/or the University of Saint Mary website. Warnings will include sufficient information to allow people to take appropriate precautions to avoid becoming victims of a crime. Updates will be issued as necessary. Anyone with information warranting a timely warning should contact the Safety & Security Officer on duty at 913-683-5201, or in person in Berchmans 012.

In compliance with our Program Participation Agreement (PPA) with the U.S. Department of Education, we promptly disclose the results of disciplinary proceedings to the alleged victim of any crime of violence or a non-forcible sex offense and to the accused.

If a member of the University of Saint Mary community has reason to believe that a student who resides in on-campus housing is missing, he or she should immediately notify Campus Safety at 913- 683-5201. The report can also be made to any member of the University of Saint Mary faculty or staff member. Any faculty or staff

member receiving such a report shall immediately notify Campus Safety. University of Saint Mary Campus Safety will generate a missing person report and initiate an investigation. If the student is missing for more than 24 hours or circumstances warrant a determination that the person is missing before that, the University of Saint Mary Campus Safety will notify the Leavenworth Police Department and the student's emergency contact no later than 24 hours after that determination. If the missing student is under the age of 18 and is not an emancipated individual, University of Saint Mary Campus Safety will notify the student's custodial parent or legal guardian in addition to any other designated contact within 24 hours of the determination that the student is missing. In addition to registering an emergency contact, and in accordance with the 2008 Higher Education Opportunity Act, the University of Saint Mary offers students the opportunity to identify a confidential contact who would be notified in the event the student is reported missing. This information is voluntary and is kept confidentially. It will only be used in the event the student is reported missing. If a student has identified such an individual, the University of Saint Mary will notify that individual no later than 24 hours after the student is determined to be missing. Students who wish to identify a confidential contact can do so by contacting Residence Life or Campus Safety at 913-683-5201.

The daily crime log can be accessed online at https://goo.gl/vBvSGa. Periodically, a hard copy is printed off and kept in the Security Office located in Berchmans 012.

Emergency procedures

The University has procedures to address a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on campus. These include such things as fires, tornados, earthquakes, contagious illnesses, bomb threats, and armed intruders. Anyone with information concerning such a threat should call 911 and campus safety at (913) 683-5201. The University has communicated with local police requesting their cooperation in informing the University about situations reported to them that may warrant an emergency response. If the report of the threat is not from an official source (e.g., law enforcement, health agency, weather station), the President will access available sources of information from campus administrative staff and local authorities to confirm the existence of the danger and will be responsible for initiating the University's response and for marshaling the appropriate local emergency response authorities for assistance. Depending on the nature of the emergency, other College departments may be involved in the confirmation process. Once the emergency is confirmed, the University community, or appropriate segments of it, will be notified. The President in collaboration with other appropriate personnel, will determine who should be notified and will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to or otherwise mitigate the emergency.

Depending on the segments of the campus the notification will target, the content of the notification may differ. When appropriate, the content of the notification will be determined in consultation with local authorities. Also as appropriate, the notification will give guidance as to whether its recipients should shelter in place or evacuate their location. The President will direct the issuance of emergency notifications, which will be accomplished using one or more of the following means, depending on the nature of the threat and the segment of the campus community being threatened: University email, TextAlert mass text notification system, university telephone intercom system, public address system, and/or website notification. The President will work with University Public Relations to disseminate emergency information to those outside the campus community. The University tests its emergency response and evacuation procedures at least once a year.

Also, at various times Campus Safety and appropriate University administrators will meet to train and test and evaluate the University's emergency response plan. Campus Safety maintains a record of these tests and training exercises, including a description of them, the dates and times they were held and an indication of whether they were announced or unannounced. In connection with at least one such test, the University distributes to its students and employees via email information to remind them of the University's emergency response and evacuation procedures.

Crimes that are also Title IX violations

While the USM administration and community is concerned with other crimes, special care and attention is given to crimes that are also Title IX violations. These crimes include domestic violence, dating violence, rape, sexual assault, and stalking. When a complainant reports one or more of these incidents – regardless of where the incident occurred – he or she is given a written explanation of his or her rights & options, including procedures the complainant can follow and the procedures for institutional response. Notes about the complainant's options include information about the importance of preserving evidence for proof of criminal activity or for obtaining a protection order, to whom offenses should be reported on campus, and options regarding notifying police. Complainants are informed in writing that they can notify campus security officers and/or local police and that campus authorities can assist them in notifying the local police. Complainants are also informed that they can decline to notify police or campus authorities. Notes about complainant's rights include the institution's policies and responsibilities regarding orders of protection, no-contact orders, restraining orders, or similar orders issued by a criminal, civil, or tribal court, including options for, and available assistance in, changing academic, living, transportation, and working situations if those changes are requested by the complainant and reasonably available, regardless of whether the complainant reports the offence to campus security or local police. Complainants are also notified about counseling, health, mental health, advocacy, legal assistance, and other services available on and off campus.

Procedures for internal disciplinary action provide prompt, fair, and impartial investigation into the complaint, determination whether the events "more likely than not" occurred as reported by the complainant (known as the "preponderance of evidence" standard), and resolution. These procedures are conducted by officials who receive annual training on issues related to domestic violence, dating violence, sexual assault, and stalking, as well as how to conduct a hearing process that protects complainant safety and promotes accountability. During these procedures, both complainant and accused are entitled to the same opportunity to have others present during an internal disciplinary proceeding, including the opportunity to be accompanied to any related meeting by an advisor of their choice. Upon resolution, receive simultaneous written notice of the outcome of the disciplinary hearing, the institution's appeal procedures, any change to the results before the results are final, and when the results become final.

Disciplinary sanctions will include conditions that are consistent with the nature of the offense at the discretion of the vice president for student life and campus judicial officers. The following disciplinary sanctions may be imposed for violation of university and residence hall policies. One or more sanctions may be imposed depending upon the severity of the misconduct, including, but not limited to planning a program, attending a program, monetary restitution, fines, loss of privileges, warnings, probation, removal, referral to authorities, and/or parent notification.

The University of Saint Mary protects complainant confidentiality where possible, including withholding the complainant's identity in Time Warnings and other publicly available records, to the extent permissible by law.

The Office of Compliance, Health & Safety at the University of Saint Mary offers students and employees written information about Title IX and Title IX violations, including but not limited to, domestic violence, dating violence, rape, sexual assault, and stalking. An online interactive program is offered through USM targeting the prevention of Title IX violations and behaviors that could potentially lead to Title IX violations. Students, employees, and members of the local community are invited throughout the year to attend face-to-face sessions that discuss the prevention of Title IX violations and behaviors that could potentially lead to Title IX violations. Training opportunities include the meaning of consent, university policies, alcohol and drug awareness, and positive methods for intervention. In addition, all employees with reporting obligations are trained on those obligations, and all employees who are likely to receive reports are trained on how to respond, including how to advise students about confidential resources and the rights, remedies, and services available to them. All persons involved in implementing campus grievance procedures have training or experience in addressing sexual violence complaints and in using the grievance procedures. Incoming freshmen and transfer students participate in a brief program targeting the prevention of Title IX violations and behaviors that could potentially lead to Title IX violations as part of their orientation sessions. These new students are also visited by the Title IX Coordinator in their First Year Experience or Transfer Core classes for a discussion of the online program, as well as discussion about preventing Title IX violations and behaviors that could potentially lead to Title IX violations. New employees are immediately given access to the online training module, informed about face-to-face training opportunities, and encouraged to contact the Title IX Coordinator with any questions.

The State of Kansas requires offenders convicted of certain crimes of violence, sex offenses and drug offenses to register with the State of Kansas. The information in the registry contains a photograph of the offender, the offender's address and the crimes for which they were convicted requiring registration. The data base is searchable by geographic location or by name. The Kansas Bureau of Investigation maintains the website and it can be found here: http://www.kbi.ks.gov/registeredoffender/

The Annual Security Report (ASR)

The Annual Security Report (ASR) for the University of Saint Mary includes all reports of possible criminal activity on and around the main campus or Overland Park campus unless local law enforcement found the report to be unfounded. The crime statistics found in this website represent alleged criminal offenses reported to campus security authorities and/or local law enforcement agencies. Therefore, the data collected do not necessarily reflect prosecutions or convictions for crimes. Because some statistics are provided by non-police authorities, the data are not directly comparable to data from the FBI's Uniform Crime Reporting System which only collects statistics from police authorities.

The Office of Health, Safety & Compliance publishes this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. The full text of this report can be seen through Sharepoint. You can connect to this site via www.stmary.edu. This report is prepared in cooperation with the local law enforcement agencies surrounding our main campus and alternate sites, housing and residential services, student life staff, and many other members of our campus community. Each entity provides updated information on their educational efforts and programs to comply with the Act. Campus crime, arrest and referral statistics include those reported to the local law enforcement, designated campus officials (including but not limited to directors, deans, department heads, and athletic coaches). These statistics may include crimes that have occurred in private residences or businesses and is not required by law. Counseling services staff inform their clients of the procedures to report crime on a voluntary or confidential basis, should they feel it is in the best interest of the client. A procedure is in place to anonymously capture crime statistics disclosed

confidentially during such a session. Each year, an e-mail notification is made to the campus community. Copies of the report may also be obtained from the Safety & Security Office located in Berchmans 012 or by calling 913-758-4346. All prospective employees may obtain a copy from Human Resources in Mead 200 or by calling 913-758-4359. The web address is also posted on the Human Resources website. A link to this report is also located with the class schedule.

The Annual Fire Safety Report

Along with the ASR, the University of Saint Mary publishes an annual fire safety report containing policy statements as well as fire statistics associated with each on-campus student housing facility, including number of fires, cause, injuries, deaths and property damage. The University of Saint Mary similarly maintains a fire log open to public inspection as part of the Daily crime log, which can be accessed online at https://goo.gl/vBvSGa. Periodically, a hard copy is printed off and kept in the Security Office located in Berchmans 012.

Each of the campus residence facilities (both located at 4100 S. 4th Street in Leavenworth, KS) have monitored alarms on site, smoke detectors, fire doors, fire extinguishers, evacuation plans, and placards. Berkel Hall is additionally equipped with a full sprinkler system. Each building has four (4) fire drills in a calendar year.

Fire Safety, Open Flame and Portable Appliance Policy

The capacity of the electrical system in the residence halls is limited, and overloading these systems can present fire and safety hazards. Only a “power strip” approved by Underwriters Laboratories, Inc. (UL) that contains its own fuse may be used to obtain additional electrical outlets. The use of an electrical “octopus” (multiple head plugs) is strictly prohibited. The use of extension cords should be kept to a minimum and should never run under carpets or between room furniture. Extension cords must be grounded (three prongs). No household extension cords (2 prongs) are allowed in the residence halls.

Electrical appliances allowed in student rooms are as follows: blow dryers, clocks, coffee makers, computers, curling irons, irons, popcorn poppers, pressing combs, printers, refrigerators – small (up to 2.5 cubic feet), televisions, VCR’s/DVD players. The following items are prohibited in student rooms: open element appliances such as hot plates or toasters, George Foreman grills, broilers, space heaters, immersion heaters, toaster ovens, electric woks, kerosene heaters, sun lamps, outside antennae, rice cookers, griddles, or halogen lights of more than 300 watts as well as any halogen light that does not meet current UL approval that is equipped with a protective cover over the bulb; devices using an open flame such as candles, camping stoves, grills, fondue pots, incense, hookahs, and gas lanterns; containers of flammable liquids or volatile toxic materials like gasoline or kerosene are not permitted in the residence halls.

Non-compliant devices will be confiscated until the student can remove them from campus. The use of small appliances for cooking should be confined to the kitchens. Items, including furniture, may not interfere with access to room doors and windows. Tampering with any university electrical equipment including breaker boxes and outlets or with electrical equipment of another resident is prohibited. Smoking is only allowed in designated areas outside of the residence halls. There is no smoking of any kind inside any of the USM buildings. Campus Safety and Residence Life personnel conduct periodic inspections of living areas and take corrective action to eliminate any hazards observed above.

Any fires, even those extinguished without further assistance, are required to be reported to Campus Safety and Security for inclusion in the fire safety report.

Fire Evacuation Procedures

Residents are directed, when a fire alarm rings, to remain calm and evacuate the building, closing room doors behind them. If possible, wear shoes and a jacket, if needed. If smoke is present, hold a damp cloth over your mouth, stay close to the floor, and do not use the elevator. Once outside, move away from the building and remain outside until directed to return by a member of Residence Life or other university personnel.

The fire alarm sounds for both drills and actual fires. The above procedure is followed anytime the alarm sounds. Many times fire and smoke are not evident in all parts of a building. Failure to evacuate the building for a fire drill or actual fire will result in disciplinary procedures.

Fire Safety Education and System Testing

Residents receive information related to fire safety during new student and resident orientation. In addition the Department of Campus Safety and Security and Residence Life provide periodic safety bulletins. The fire safety systems and fire extinguishers are tested on an annual basis by an outside vendor. Members of the Department of Campus Safety and Security, Residence Life, and Facilities periodically review the policies and procedures related to fire safety. As of the time of this report no imminent changes are anticipated.

Criminal Definitions

Crimes against the state

There are actually six categories of crimes under this classification; the three definitions below apply to each of two separate sanctions. Reports of an “Arrest for” one of the following violations indicates that the person was processed by local law enforcement through arrest, citation, summons, or similar process. Reports of a “Referral for disciplinary action for” one of the following violations indicates that local law enforcement sent the person back to campus officials for internal handling. Campus policy violations DO NOT fall under any of these categories. If a single incident results in multiple arrests or referrals, they are each counted as individual crimes.

Alcohol or Liquor Law Violation: Violation of laws or ordinances prohibiting the manufacture, sale, transport, furnishing, or possession of intoxicating liquor. Attempts are included. Intoxication and moving violations DO NOT fall under this category.

Drug Abuse Violation: Violation of state or local laws relating to the unlawful possession, sale, use, growth, manufacture, or making of opium or cocaine and their derivatives (e.g., morphine, heroin, codeine); marijuana; synthetic narcotics (e.g., Demerol, methadone); and dangerous non-narcotic drugs (e.g., barbiturates, Benzedrine).

Weapons Law Violations: Violation of laws or ordinances dealing with weapon charges that are regulatory in nature (e.g., manufacture, sale, or possession of deadly weapons; carrying deadly weapons concealed or openly; furnishing deadly weapons to minors; aliens possessing deadly weapons). Attempts are included. Other crimes involving a weapon DO NOT fall under this category.

Crimes against a person

Aggravated Assault: An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This is usually accompanied by the use of a weapon or by means likely to produce

death or great bodily harm. Simple assaults DO NOT fall into this category. Dating violence and domestic violence DO NOT fall into this category.

Assault or Simple Assault: An unlawful attack by one person upon another person where there is no report of a weapon and the complainant's injuries are minor (e.g.: no apparent broken bones, no loss of teeth, no possible internal injury, no severe lacerations, no loss of consciousness). Dating violence and domestic violence DO NOT fall into this category.

Dating Violence: Violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the complainant given consideration of the following factors: (A) the length of the relationship (B) the type of relationship, and (C) the frequency of interaction between the persons involved in the relationship.

> **In Kansas**, "Dating Violence," is only a crime under the umbrella of "Domestic Violence" and only when the relationship is social and romantic in nature. In addition to any other factors the court deems relevant, the court will consider the nature of the relationship, the length of time the relationship existed, the frequency of interaction between the parties, and the time, if any, since termination of the relationship.

Domestic Violence: Felony or misdemeanor crimes of violence committed by a current or former spouse of the complainant, by a person with whom the complainant shares a child in common, by a person who is cohabitating with or has cohabitated with the complainant during a romantic or intimate relationship, by a person similarly situated to a spouse of the complainant, or by any other person against an adult or youth victim who is protected from that person's acts.

> **In Kansas**, "Domestic Violence" means an act or threatened act of violence against a person with whom the offender is involved or has been involved in a dating relationship, or an act or threatened act of violence against a family or household member by a family or household member. Domestic violence also includes any other crime committed against a person or against property, or any municipal ordinance violation against a person or against property, when directed against a person with whom the offender is involved or has been involved in a dating relationship or when directed against a family or household member by a family or household member.

Intimidation: Unlawfully placing another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct where there is no evidence of a weapon or physical attack.

Murder or Non-Negligent Manslaughter: The willful/intentional killing of one human being by another. NOTE: Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides DO NOT fall into this category.

Negligent Manslaughter: The killing of another person through gross negligence, meaning the killer acted unreasonably, but not necessarily maliciously, and the death was a foreseeable outcome of the careless behavior. Death caused by the deceased's own negligence , traffic fatalities, and accidental deaths not resulting from gross negligence DO NOT fall into this category.

Rape: Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without prior consent. After January 2013, the definition is no longer "carnal knowledge of a female against her will"; divisions of forcible and non-forcible have been removed from this definition; "sodomy" and "sexual assault with an object" were removed as separate crimes. Earlier data were not revised.

> **In Kansas**, "Rape" is any penetration of the female sex organ by a finger, the male sex organ or any object except as part of a lawful body cavity search or a generally recognized health care

procedure. “Sodomy” is used for any oral contact or oral penetration of the female genitalia, oral contact of the male genitalia, anal penetration of a male or female by any body part or object, and incidents of intercourse between a human and an animal, except as part of a lawful body cavity search or generally recognized health care procedure.

Sexual Assault (other than rape): The touching of the body parts of another person for the purpose of sexual gratification if that person has not given consent or is not capable of giving consent because of age, permanent mental incapacity, or temporary mental incapacity. Rape DOES NOT fall under this category.

In Kansas, "Unlawful sexual acts" include any rape, indecent liberties with a child, aggravated indecent liberties with a child, criminal sodomy, aggravated criminal sodomy, lewd and lascivious behavior, sexual battery or aggravated sexual battery

Stalking: Engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others; or suffer substantial emotional distress.

In Kansas, there are three definitions of “Stalking.” 1.) Recklessly engaging in a course of conduct targeted at a specific person which would cause a reasonable person in the circumstances of the targeted person to fear for such person's safety, or the safety of a member of such person's immediate family and the targeted person is actually placed in such fear. 2.) Engaging in a course of conduct targeted at a specific person with knowledge that the course of conduct will place the targeted person in fear for such person's safety or the safety of a member of such person's immediate family. 3.) After being served with, or otherwise provided notice of, any lawful protective order that prohibits contact with a targeted person, recklessly engaging in at least one act that violates the provisions of the order and would cause a reasonable person to fear for such person's safety, or the safety of a member of such person's immediate family and the targeted person is actually placed in such fear.

Crimes against property

Arson: Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

Burglary: The unlawful entry of a structure – not necessarily a room or building – to commit a felony or a theft. Attempted forcible entry DOES fall into this category. The FBI recognizes breaking & entering, as well as breaking or entering, under the definition of “Burglary.”

Larceny: The unlawful taking, carrying, leading, or riding away of property (NOT motor vehicles) from the possession or constructive possession of another. Attempted larcenies are included. Thefts of bicycles, motor vehicle parts and accessories, shoplifting, pocketpicking, or the stealing of any property or article that is not taken by force and violence or by fraud DO fall into this category. Embezzlement, confidence games, forgery, check fraud, etc. DO NOT fall into this category.

Motor Vehicle Theft: The theft or attempted theft of a motor vehicle. A motor vehicle is self-propelled and runs on land surface and not on rails. Theft of motorboats, construction equipment, airplanes, and farming equipment DO NOT fall into this category.

Robbery: The taking or attempt to take anything of value from the care, custody, or control or a person or persons by force or threat of force or violence and/or putting the victim in fear.

Vandalism: The intentional and/or malicious destruction, injury, disfigurement, or defacing of property – public or private, real or personal – without the consent of the owner or person with control and custody.

Hate Crime Designation

If a crime in the report is designated as a hate crime, this is not a separate crime, nor is it a separate category or classification of crime. It is a notation of whether the facts indicate the crime in question was related to or motivated by the accused's bias. The designation comes from evidence that supports the accused's actions were "Motivated by Bias." Hate crimes will include further indication of whether the motivation was the complainant's "Perceived" or "Actual" identification with a minority "Race," "Religion," "Ethnicity," "Gender," "Sexual Orientation," "Disability," "Gender Identity," or "National Origin." An "Actual identification" is supported by evidence that the complainant identified with the relevant minority group. A "Perceived identification" is supported by evidence that the complainant did not identify with the minority group, but the accused acted under the belief the complainant did.

Clery Statistics for the Last 3 Years

What	When	Where				Hate Crime Designation	Institutional Findings
Nature of the Offense	Year	Campus Housing	Elsewhere On Campus	Off Campus	Public Property		
Crimes Against the State
