University Learning Outcomes

The student will:

1. Demonstrate ability to investigate and assess information to develop knowledge.
2. Demonstrate ability to use, integrate, analyze, and interpret complex information and connect theory and practice to draw new and perceptive conclusions.
3. Demonstrate the ability to evaluate information from disparate sources, to transform information into meaningful knowledge to solve or accept complex issues.
4. Demonstrate ability to use English language conventions accurately to construct coherent written and oral arguments.

General Education Requirement	**ULO 1**	**ULO 2**	**ULO 3**	**ULO 4**
Behavioral Science Course		X		
Cultural Studies Course			X	
EN 111, EN 112, EN 310				X
