

This program will provide recognition and financial support to student nurses annually in an effort to set the highest healthcare quality benchmarks, and retain outstanding nurses in our hospitals.

Employment Requirements

Scholarships are available to students beginning the first semester of their junior year through the second semester of their senior year. Upon graduation, nurses who have received the scholarship are obligated to accept employment at Saint John's Health Center.

For each year of scholarship, one year of employment will be expected. *Subject to prorated repayment for early separation of employment.

Scholarship Distribution

1. Recipients will receive their tuition paid directly to the University of Saint Mary each of the last four semesters. Financial need is not a criterion for scholarship approval. Hospitals will send scholarship funds directly to the University of Saint Mary each of the last four semesters. Recipients receiving full tuition hospital scholarships will forfeit all USM scholarships. Recipients of hospital scholarships that are less than the full tuition charge may continue to receive already awarded USM scholarships amounts (not exceed the difference between tuition and the hospital scholarship).
2. Following the first semester of funding, recipients must re-submit an official transcript to request funding for their second semester if acceptable academic standards are maintained. An official transcript is expected after each completed semester.
3. Recipients will be asked to sign a Scholarship Program Agreement.
4. Recipients who fail to maintain a 3.0 GPA must return the corresponding prorated amount of fund to Saint John's Health Center immediately.
5. Recipients who discontinue their employment with Saint John's Health Center prior to completing their expected term of employment are expected to return the corresponding amount of fund immediately. (An individual who works half of the agreed upon term must return half of the funding.)
