

University of Saint Mary

RN to Bachelor of Science In Nursing Program

Effective **January 5, 2009**, students accepted conditionally to the RN to Bachelor of Science in Nursing program will have 45 calendars days to complete the requirements to become fully accepted. The 45 day deadline will be calculated from the date of conditional acceptance regardless if the student has registered for their first term of courses or not. Students who do not complete the requirements for full acceptance on/before the 45<sup>th</sup> day will be placed on registration hold until they've completed the requirements for full acceptance.

Students conditionally accepted prior to **January 5<sup>th</sup>** must complete all requirements for full acceptance on/before **February 28, 2009**, failure to do so will place the student on a registration hold until full acceptance requirements are completed. This change will be added as an addendum for the 2008-2009 catalog and will override any communications regarding a two term policy for conditionally acceptance.

Rebecca Cahill, MSN

Director of Nursing
